Product description. 110kV Current Transformer is inverted oil/paper insulation type product. The main insulation is wound from high voltage cable paper, and is placed several capacitor screen of voltage division in the primary insulation, which can improve electric field distributing and decrease the consumption of insulation material.

The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres. The fold-away PV generator requires neither cable trenches and heavy lifting equipment, nor is it ...
