With its smaller transformer, high frequency inverters typically surge at a lower rate, and/or for shorter periods of time than its low frequency counterparts. With the new technologies implemented on power inverters, a low frequency inverter can now match or even outpace high frequency in idle consumption and max THD.

We're professional high frequency inverter manufacturers and suppliers in China, providing customized service with low price. We warmly welcome you to buy discount high frequency inverter from our factory. For ...
