

240 degree lighting solar lamp

What is a 110 degree security light?

This 110-degree, two-head white security light also gives you extra light just when you need it. It is a terrific way to know when guests have arrived at your house. The Utilitech Lighting keep your home safer with 180 degree Outdoor Motion Security Light. This security light is perfect for driveway and garage areas.

How much power does a LED light need?

Powered by the sun, there is no electrical power or wiring required. This versatile light features multiple mounting options with unique brackets and metal straps allowing for wall, eave, corner, and pole mounts. The fully adjustable 3-head design and super bright LEDs provide up to 5000 sq. Ft. of coverage.

How many lumens should a light bulb have?

Good mid-range option for residential use. 6,500 to 10,000 lumens: The ideal brightness range for effectively lighting most medium to large residential yards, driveways, or exterior spaces. 10,000 to 20,000 lumens: Commercial-grade illumination for large properties, fields, barns, warehouses, and more.
