

710W solar charging

The SSM680-710 Watt 218mm cell by Sunergy Solar is a high-powered solar module designed to deliver maximum efficiency and energy output. With its large 218mm cells and M12 interconnector, the module offers improved performance and easier installation compared to traditional modules. The advanced PERC cell technology and half-cut cell design result in a ...

The 710W solar panel is a high power module that uses the latest half-cut technology to make each cell a complete cut, avoiding hidden cracks. The half-cell design reduces operating current and hot spot temperature, ensuring ...

photovoltaic modules, solar energy and battery storage solutions to customers. The company was recognized as the No. 1 module supplier for quality and performance/price ratio in the IHS Module Customer Insight Survey. Over the past 22 years, it has successfully delivered over 100 GW of premium-quality solar modules across the world.
