

Affordable and easy-to-use outdoor power supply

What are the benefits of using a power supply?

Deliver stable and security power to most of your devices (less than 300W) like laptops, phones, cameras, drones, light, CPAP machine etc. Ideal for outdoor activities (camping, RV trip, fishing, hunting, boating) and home emergency (power outage, hurricane)

Why should you choose a powerfar outdoor power supply?

The outdoor power supply is not only easy to use, but also compatible with most devices below the rated power. Powerfar outdoor power supplies not only follow all safety standards, but also provide customers with a better experience and use.

Are there any good small portable power stations?

There are better products in the small portable power station category. Goal Zero Yeti 700 (677Wh): Overall this unit tested OK; nothing outstanding. One of the more interesting aspects of the design is the use of plastic protective 'flaps' covering the in/output ports.

How do I choose a portable power station?

Output is the other piece of the puzzle here. You'll want to consider what you need to run. If you simply top-up some phones and laptops, the smaller portable power stations that have just one or two AC outlets and a handful of USB-C and USB-A ports should be enough for you.

Are portable power stations worth it?

This power station offers a lot of bang for the buck. Sure, it isn't going to power your house through a days-long outage, but it offers a lot of nice features for the price, making it one of the better values out there, especially if you can pick it up on sale. How long do portable power stations last?

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.
