

Asuncion makes outdoor power

Does Asuncion need integrated land-use planning?

Asuncion, a city that has grown fast in the past decades, has proven that integrated land-use planning is not only necessary but urgent. Within the project's framework, UNDP's integrative role helped spark a multisectoral debate about a metropolitan approach to land-use planning for Asuncion and the 10 cities around it.

Is Asuncion an urban area?

Surrounded by the Paraguay River and other municipalities, urban development in Asuncion has already reached the city's territorial limits. The metropolitan area consists of Asuncion and 10 other municipalities within the Central Department. They all form part of a continuous urban area with an exclusively urban population, occupying 686 km².

Is Asuncion a green city?

Asuncion was designated a green city following a process involving an extensive study and it is estimated that Asuncion contains more than 750 hectares of green space, comprised of approximately 200 sites (plazas, squares, parks, viewpoints, cycle paths, linear commons, etc.).

What is the weather like in Asuncion?

According to historical records, the average annual temperature in Asuncion is 22.7 °C (21-year historical database) with an average rainfall of 1370 mm per year (114-year historical database). The weather variation over the course of the year is as follows: January is the warmest month with an average temperature of 27.4 °C.

Is Asuncion a major city?

Asuncion has all the physical assets of a major city and, as is to be expected, varying levels of development. It has a historical district, residential neighbourhoods, commercial areas, and the typical infrastructure of a major city.

What is the climate like in Asuncion Paraguay?

The climate in Asuncion is warm and mild, with rainfall occurring during all months of the year. The Paraguay River surrounds a large proportion of Asuncion forming a natural border on its northern, southern and western sides. Currently, 70% of households in Asuncion are connected to the city's sewage system.
