Who is Black Mountain Energy Storage?

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline development of utility-scale energy storage solutions.

Did UBS acquire Black Mountain Energy Storage?

UBS Asset Management today announced the acquisition of five standalone, development-stage energy storage projects in Texas from Black Mountain Energy Storage. Read more... Cypress Creek Renewables has added 400MW/600MWh to its storage portfolio after acquiring four Texas standalone energy storage projects from Black Mountain Energy Storage.

What makes Black Mountain a great partner?

Black Mountain has been an exceptional partner to work with and we are excited to throw our development, EPC and financing expertise behind these assets to move them across the finish line, affirming our commitment to developing resilient renewable energy resources throughout Texas.

Will a 200mwh battery energy storage system be online in 2024?

A 200MWh battery energy storage system (BESS) from developer Available Power at a net-zero technology campus in Texas is expected to be online in mid-2024. Read more... Energy companies are snapping up storage assets in the 'Lone Star State'. The state's lack of secure energy supply is driving the innovation. Read more...

Plans submitted by Black Mountain Energy Storage, its civil engineering partner Westwood and legal counsel Armundsen Davis in August put the system's sizing at 300MW output. Black Mountain Energy Storage CEO ...

IPP Vitis Energy has acquired a 200MW BESS project in the ERCOT, Texas market from developer Black Mountain Energy Storage (BMES). The Apache Hill BESS project is located adjacent to the 2.4GW Comanche ...

Black Mountain Energy Storage is a team of energy experts who develop and operate battery energy storage facilities. Founded in 2021, BMES was established to bring reliable, emissions-free energy storage capacity to the electric grid to enhance system reliability and enable greater reliance on renewable generation. We focus on investing in ...

PORTLAND, Ore., January 17, 2025--GridStor, a developer and operator of utility-scale battery energy storage systems, announced today that it has acquired a battery storage project in Oklahoma ...

ENERGY STORAGE NEWS: Black Mountain Energy Storage gets approval for 300MW/1,400MWh Wisconsin BESS project September 28, 2023 Developer Black Mountain Energy Storage has won approval from the City of Milwaukee ...

Developer Black Mountain Energy Storage (BMES) has sold 700MW of development-stage projects to UBS Asset Management, its third substantial sale in the Texas ERCOT market in two months. The five ...

An unusual energy facility is proposed for an undeveloped site near N. 84th Street and W. Mill Road. Black Mountain Energy Storage intends to build a \$450 million battery energy storage system to ...

Santa Monica, CA: July 25, 2022- Cypress Creek Renewables has added 400MW/600MWh to its storage portfolio after acquiring four Texas standalone energy storage projects from Black Mountain Energy Storage (BMES). The projects, each 100MW, are located throughout the Electric Reliability Council of Texas (ERCOT) market and are currently under development.

Black Mountain Energy Storage is a team of energy experts who develop and operate battery energy storage facilities. Founded in 2021, BMES was established to bring reliable, emissions-free energy ...

5+ Sites Under Investigation/Negotiation. QUESTIONS? If you have questions, or would like to discuss hosting a facility on your land, don't hesitate to contact us. Our projects contain flexible assets tactically positioned at points of persistent ...

GridStor Announces Acquisition of Oklahoma Battery Energy Storage Project From Black Mountain Energy Storage. 200 MW / 800 MWh acquisition will help the region meet rising power demand from data ...

Dan Ditto is the Director of Land for Black Mountain Energy Storage. He says with the coal plant retiring in 2026, this will be a good thing for the town of Oologah.

The deal with UBS Asset Management comes only a few days after Black Mountain Energy Storage unveiled the sale of four standalone energy storage projects in Texas with a combined capacity of 400 MW/600 MWh. The buyer is US renewable energy plants developer and operator Cypress Creek Renewables. Sector. Energy Storage.

Black Mountain Energy Storage, based in Austin, wants to build the 300-megawatt lithium-ion battery storage system on a portion of a vacant 32-acre site at 6100 N. 84th St.

Jackson Hughes, Black Mountain Energy Storage's Manager of Development, responded that utility-scale batteries are typically used when demand and prices for energy are high, after storing energy while demand and prices are low - which can reduce grid strain on typical days, but not necessarily serving as a fix for extended outages.
