

Brazil Sao Paulo large monomer for outdoor power supply

We have received a lot of questions about the standards of electricity in Brazil. Brazil is the only country who are using the N-type plug and connectors. Brazil is standardizing on the below plugs. You will still find a lot of sockets based on the various old standards, but in every electricity store you will find adapters. 127 Volt or 230 Volt

Sao Paulo city is located within the greater state of Sao Paulo in southeastern Brazil. It's about 430 km (270 miles) south of Rio de Janeiro and it lies 60 km inland from the coast, separated from the sea by the formidable Serra do Mar mountains which are covered in some of Brazil's only remaining Mata Atlantica - Atlantic Rainforest.. If flying into Sao Paulo, ...
