How much does a 10kW Solar System cost in Canberra?

A 10kW solar system in Canberra, ACT, costs about \$10,740 on average. On the low end, the system costs about \$10,142, while on the high end, the cost can go up to \$11,179 or more for top-of-the-range solar panels. The exact cost of the system depends on the quality you choose, your solar provider, and the complexity of your roof.

How much do solar panels cost in Canberra?

According to Solar Choice, solar panels of sizes ranging from 3kW to 10kW can set you back \$4,850 to \$8,520 on average in Canberra. Premium solar panel systems with better quality and service will cost you more. The brand and quality of hardware, the installer's rates, and the rebates will influence the price you pay for a solar system.

Is solar power worth it in Canberra?

Yes, solar power is worth it in Canberra. The city is fairly sunny throughout the year, and if you consume most or all the power your system generates, you can get a good ROI from the system. The amount your solar system can save you depends on the system size and the percentage of power you can consume daily.

Are solar panels a smart financial move for Canberra homeowners in 2024?

Solar panel installation proves to be a smart financial move for Canberra homeowners in 2024. Market data and proven returns support this claim. A standard 6.6kW system costs between AUD 6,158 and 9,237, which marks the lowest prices in history. These systems can cut energy bills by 50-80%.

How much solar energy does Canberra produce a day?

Below is some basic information about solar energy in Canberra. The average rooftop in Canberra receives approximately 4.8 hours of 'peak sun' per day, averaged throughout the year. Assuming an overall system efficiency of about 80%, this means that: A 1.5kW system in Canberra will produce about 5.76kWh per day in good conditions.

What is the solar rebate in Canberra?

Here is a table showing the solar rebate in Canberra for solar system sizes. The ACT solar battery rebate scheme, widely known as Next Generation Energy Storage Program, was launched in 2016. This program provides a rebate of \$825/kWh for battery storage and has supported the installation of more than 600 batteries across Canberra.
