

Cuba sells 12V high voltage inverter

Why is Cuba allowing a non-commercial import of photovoltaic systems?

Cuba authorized this Wednesday the non-commercial import of photovoltaic systems, their parts and pieces, free of customs duties, by individuals. The regulation aims to increase the participation of individuals in the electric power generation matrix, to advance in the development of renewable energy sources in Cuba, the source indicates.

Does Cuba have a voltage converter?

Although Cuba officially runs on 110V, many of the more modern hotels have 110/220V (dual voltage) outlets to cater to the lucrative European market. However, it's often difficult to determine what the voltage is, so always assume 110V unless it's explicitly stated otherwise. Do I Need A Voltage Converter in Cuba?
