

Djibouti glass photovoltaic sun room manufacturer

Compared with ordinary sun room, what are the advantages of photovoltaic sun room? 1. Cost saving: Since the roof of the sun room itself requires glass or wood structure, if the photovoltaic double-glass module is used instead, it will not only save the cost of roofing materials, but also produce certain economic benefits.

The traditional sun room is nothing more than a glass room built with aluminum alloy brackets and glass. When encountering hot weather, the whole room is as hot as a small stove. Now there is a new sun room, which is not only beautiful, but also environmentally friendly and a renewable energy source

Our services are designed to cover the entire value chain of a solar module system investment, from inception to manufacturing inspection, technical consultancy, construction supervision ...

During the same year, the solar PV pricing survey and market research company PVinsights reported that there was a growth of 117.8% in solar PV installation on a year-on-year basis. Because of the over 100% year-on-year growth in PV system installation, PV module manufacturers dramatically increased their shipments of solar modules in 2010.

Despite exiting the glass industry, TGL is now planning to enter the solar glass manufacturing market with a new solar glass manufacturing plant in Andhra Pradesh. This project requires an estimated investment of Rs. 1000 crore, and the plant will have a production capacity of 840 metric tons per day.
