No, the Nest Outdoor Camera does not have a battery backup feature. It requires a constant power source to operate effectively. The need for a battery backup feature stems from the desire for uninterrupted surveillance. If the power supply is cut off due to an outage or tampering, a battery backup would keep the camera operational.

Hi @dankelly736, . When you plug the charging cable into your Outdoor Camera, do you see any indication in the mobile app that the camera is charging? In the Cameras page of the app, there should be a lightning bolt next to the battery to indicate that it's charging. If replacing the camera has not helped, a replacement power cable may be the solution.

The only purpose of this article is to save you time with the data I have compiled and to provide you with a comprehensive introduction: What is an outdoor power supply? and the points to ...
