

Georgetown Solar Street Lights

How many solar powered street lights are there in Guyana?

Georgetown, January 2018: In the latter part of December 2017, the Guyana Energy Agency (GEA), through a project financed by the Government of Guyana, installed twelve (12) integrated 80W solar powered street lights around the Stabroek Market Square and 750 energy efficient Light Emitting Diode (LED) bulbs around the eastern facade of the building.

How do solar powered street lights work?

The integrated solar powered street lights that were installed use renewable energy from the sun to charge the batteries which provide lighting at nights using energy efficient LED lights. The lights are controlled by a light sensitive circuit to switch the lights on in the evenings and turn them off at dawn.

How many LED street lights are installed in Guyana National Park?

Georgetown, April 2019: The Guyana Energy Agency (GEA), with support from the Canadian High Commission in Georgetown, under a grant from the Canada Fund for Local Initiatives (CFLI), supervised the installation of nine (9) integrated stand-alone solar powered 80W Light Emitted Diode (LED) street lights at the Guyana National Park.

Are street lights solar powered?

You see, while these street lamps are primarily solar-powered, they also have a built-in mechanism that allows you to install a vertical-axis wind turbine. Meaning even if there's no sunshine for days or weeks, you can still power up the street lights.

Can solar street lights save energy?

Based on the existing Street Lights Tariff, the 12 solar powered street lights will result in annual energy savings of about 4,205 kWh, resultant annual cost savings of about G\$184,170 and 2,523 kg of avoided CO₂. The computed simple payback, when compared to a similar installation using utility powered 80W LED lamps, is 6 years.

Are solar street lights eco-friendly?

Solar street lights are not just eco-friendly; they significantly cut down on electricity bills and require minimal maintenance. Their ability to store solar energy and function efficiently even during power outages makes them an excellent choice for sustainable lighting solutions. Lead Solar Lighting Specialist
