

India Mumbai Green Energy Storage Power Company

Will Tata Power install a 100MW battery energy storage system in Mumbai?

Credit: Piotr Swat / Shutterstock.com. Tata Power has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to implement a 100MW battery energy storage system (BESS) in Mumbai, India, with plans to complete the installation by 2027.

How can India achieve a green energy future?

India ranks fourth in total renewable power capacity additions as it works toward its goal of generating half its electricity from non-fossil fuel sources by 2030. To achieve a green energy future, Indian companies are developing alternatives like solar, wind, green hydrogen, biomass and hydropower.

Where will a 100MW power system be installed in Mumbai?

The complete 100MW system will be installed across ten strategically located sites, particularly near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power's power system control centre.
