

Maldives outdoor power supply quotation

What is the supply voltage in the Maldives?

In the Maldives the supply voltage is 230V. If the appliance is a single voltage rated appliance, it will need to operate at the same voltage as the supply voltage of the country i.e. 230V. If this is not the case it should be used alongside a voltage transformer or converter to allow the appliance to work safely and properly.

Does Maldives have an electrical power system?

All power systems and electrical installations in Maldives must comply with the regulations of the Maldives Energy Authority. No interconnection between the islands exists as of today. Both public utility companies (FENAKA and STELCO) are owned by the Ministry of Finance.

Who is allowed to install power systems in Maldives?

In Maldives, only licensed engineers and consultants are allowed to carry out works related to power systems, including design, installation, and commissioning.

They are still used nowadays to differentiate low-power lighting circuits. So please don't try to use an adapter on them for high-power equipments like hair-dryer or even battery chargers. ... You will be able to plug the devices directly in Maldives (please read other sections of this reports in regards to voltage, etc.). Perhaps you will ...
