Things to consider when choosing a uninterruptible power supply (UPS) Why you need a UPS (Uninterruptible Power Supply) As the name implies, an uninterruptible power supply is just that: uninterruptible. This means power ...

All uninterruptible power supply batteries have a rated capacity which is determined based on specified conditions. The rated capacity of UPS batteries is based on an ambient temperature of 20°C or 25°C. Operating an uninterruptible power supply under these conditions will maximize the life of the UPS battery and result in optimal performance.

What is a UPS Power Supply? A uninterruptible power supply or uninterruptible power source (UPS) is an electrical apparatus that provides you with emergency power to a load when the input power source or mains power fails in cases of power outages or load shedding. A UPS differs from an emergency power system or standby generator as it provides near-instantaneous ...
