

Modern solar lights recommended for home use

Which solar lights are best for your outdoor space?

Luckily, we tried and tested a wide range of solar lights to find the best one for every outdoor space and how well they cope with different weather conditions for longevity. If you're after string lights, Brightech's Ambience Pro LED Outdoor String Lights is our favorite pick.

What should you consider if you want decorative outdoor solar lights?

If you're looking for lighting to hang around a gazebo or line a patio, consider more decorative models, such as the Aityvert torch lights or the Brightech string lights. Here are three factors to consider when buying landscape lighting. Before purchasing outdoor solar lights, consider your personal lighting needs.

Where can you use a solar LED lantern?

A solar LED lantern can be great not only for use in the home but for camping activities as well. Solar lanterns are a popular type of solar lights. There are in fact many different sub-categories of this type including hanging solar lights, solar garden lanterns, etc.

How much sunlight does a solar panel need?

Generally, eight-10 hours of direct sunlight per day, will produce around 15 hours of illumination. But this will depend on location, type of light and exposure it gets. It's best to place your lights in an area that isn't shaded by trees, walls or even certain roofs, as these can obstruct the amount of light the solar panels receive.

Can solar LED lights be used indoors?

The general rule for solar LED lights is that they are typically used outdoors and are connected to solar panels usually located on the top of the building. However, some indoor solar lights are available, which are typically used as alternate power sources but also main power sources.

Are LED lights a good choice for solar lighting?

LED bulbs, highly efficient compared to traditional options, use the stored energy to emit light. With its impressive efficiency, LED technology ensures longevity and brightness, making it an ideal match for solar lighting systems. Solar lights come in various styles catering to both outdoor and indoor needs. Here are some popular types:
