

# Mongolia inverter 6kw single phase

What is a single phase inverter?

The Single-phase inverters are designed for residential PV system applications, rating from 3kW to 6kW. All models have unibody housings with aluminum structure which is anodized, increasing durability and effectively preventing corrosion.

What is a AF low voltage storage inverter?

The Afore AF low voltage Series storage Inverters are designed to increase energy independence for homeowners. The power range is from 1kW to 6kW, compatible with low voltage (40-60V) batteries.

How does a smart solar inverter work?

With online and offline monitoring and management platform for every inverter, this smart solar inverter can offer continuous power to your home. It can also run directly, with or without batteries, sharing energy from utility and solar to loads alternatively.
