

Who has installed a battery energy storage system in Portugal?

System integrator Powin has been enlisted by oil, gas and renewable energy firm Galp to install a battery energy storage system (BESS) at a PV plant in Portugal, Powin's first in Europe.

Will a 5 mW 20 MWh battery storage system be built in Portugal?

Galp, a Portuguese energy company, has announced plans to build a 5 MW/20 MWh battery storage system in Portugal, in collaboration with Powin. The system at one of Galp's solar plants will enable it to adjust its PV production profile and meet its energy requirements. This project marks Powin's first venture in Europe.

Is Powin launching a battery energy storage system in Europe?

This project marks Powin's first venture in Europe. Global energy storage supplier Powin LLC and Portuguese integrated energy company Galp have partnered to install a utility-scale battery energy storage system (BESS) in Algarve, Portugal. The 5 MW/20 MWh battery system will be built at one of Galp's solar power plants near the village of Alcoutim.

Where is a utility-scale battery energy storage system based?

A utility-scale battery energy storage system based at a Galp solar plant in Alcoutim, Portugal. Oregon-based energy storage platform provider Powin LLC and Portugal's leading integrated energy company Galp have partnered to set up a utility-scale battery energy storage system at a Galp solar plant in Alcoutim, Portugal.

Is Europe ready for energy storage?

Europe is expected to deploy over 90 GWh of utility-scale battery energy storage projects by 2030, and we are well positioned to support this demand along with the wider EMEA region's rapid energy storage growth," said Powin CEO, Jeff Waters.

How much solar power does Portugal have in 2022?

Portugal's cumulative PV capacity hit 2.59 GW at the end of 2022. It aims to install 20.4 GW of solar by 2030. The country has set a goal of at least 80% of electricity production coming from renewable sources by 2050. In November, it enjoyed a weekend of being powered solely by renewables.
