## Second degree outdoor power supply

Supply from the dwelling. The conventional method for a new supply to a garage would be to utilise an existing spare way in the consumer unit. A typical garage would generally require a maximum supply of 20 A while making allowance for diversity (Regulation 311.1).

What is price discrimination? Price discrimination happens when a firm charges a different price to different groups of consumers for an identical good or service, for reasons not associated with costs of supply. Price discrimination takes us away from the standard assumption in that there is a single profit-maximising price for the same good or services.
