We are proud to offer our quality solar panels and solar energy products with installations for residential, commercial and industrial premises at competitive prices. ... "Switch ACDC- installed our 5kva solar inverter system earlier this

year! Their ...

Your solar panel orientation is an important part of the sizing of photovoltaic and solar thermal systems. Since solar power produced is directly proportional to the orientation of solar panels, the right orientation can not only maximize solar power but also decreases the cost of the project.. The orientation is composed of two parameters: direction and tilt angle.
