

Who makes battery management systems (BMS)?

By manufacturing battery management systems (BMS), the company experienced substantial revenue growth in 2021. Furthermore, LG Chem has been the preferred BMS provider for several top automobile manufacturers.

What does BMS stand for?

We develop and manufacture total solutions of Lithium-ion Battery Packs and also analog battery management systems or Protection Circuit Module (BMS/PCM), Digital Battery Management System (BMS), Battery Thermal Management Systems (BTMS), Battery Charger and customized battery packs for Li-ion batteries.

How important is a battery management system supplier?

The BMS market is anticipated to grow at a robust compound annual growth rate (CAGR) of 18.20% throughout the forecast period. As the importance of BMS is becoming more and more known, choosing a qualified Battery management system supplier is becoming more and more important.

What makes EMUs BMS different from other battery management systems?

That is where EMUS BMS stands out in the market - it provides highly modular and flexible battery management system topology (Distributed, Centralized or even mixed) for almost any voltage and current (discharge) ranges, which allows to match customer's application requirements precisely.

Which is the best battery management system manufacturer?

MOKO Energy is one of the best battery management system manufacturers, offering a diverse range of BMS customization options (customizable options: brand, specification, appearance, performance, etc.). Moreover, MOKO Energy is certified by SGS ISO14001, ISO9001, QC08000, and TS16949.
