Cons of a glass roof sunroom: Glass-roof sunrooms are beautiful and stunning to look at but will be more expensive and time-consuming to construct than a traditional solid-roof design. If your budget is a top concern, then you'll also want to consider the cost associated with sunroom roof repair when choosing a glass roof. Broken, cracked or ...

Sunroom glass photovoltaic panels. ... Sunroom Glass Options, Safety & Efficiency | Pacific Patio. Although not as energy efficient as low-E glass, tinted glass still provides effective glare reduction. It can also reduce solar heat gain. This type of glass is a good choice for sunrooms in warm ... Solar Sunroom Roof Ideas: Innovative Design ...

--Reinforced structure and toughened glass making it crush resistance and anti-deformation --safety protection without leakage, overall waterproof drainage design

Sunroom roofs are either glass or a standard roofing material. They are most commonly flat or single sloped to allow for better rain runoff. Glass roofs are the default option for sunroom kits and custom built sunrooms will sometimes have a more traditional opaque roof. The advantage of the glass roof is that it will allow more sun into the room.

Enjoy a beautiful open sky view with the practicality of an insulated roof. Our patented Comfort-Gard®; glass roof panel system allows you to control the amount of light entering your sunroom. It also comes with SheerWeave®; solar shades. They can filter up to 75 percent of the sun's heat without blocking light.
