What is Longtan energy storage system?

State-run Taiwan Power Company inaugurates today (Jan. 22) the Longtan Energy Storage System, the largest such facility in Taiwan up to now, built by TECO Electric & Machinery, on a turnkey basis.

What is Yunlin's energy storage technology?

Their innovative energy storage helps users manage electricity usage, benefiting consumers and reducing government expenses. After a Yunlin plastics factory outage, Chairman Wang's daughter, Ms. Wang Guixun, founded a company dedicated to energy storage technology.

How safe is Taiwan's Power System?

With an eye on the safety and stability of Taiwan's power system, the Longtan system features multiple protective measures for energy-storage safety, including "gas detector," "isolating switch," and "clean fire-extinguishing agent," assuring rapid and effective handling of potential risks under any circumstances.

Why are Taiwanese companies able to compete in international markets?

Therefore, Taiwanese companies are able to provide resources and connections for technological, production, or marketing collaboration up and down the industry chain, which is the advantage of competing in the international markets.

A representative of Power Master International Investment Holdings Co shows visitors the company's energy storage equipment at the Energy Taiwan trade show at the Taipei Nangang Exhibition Center's Hall 2 yesterday. The in-person show started yesterday and finishes tomorrow, while the online edition runs until Dec. 24. Photo: CNA
