What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

Are portable power stations suitable for camping?

Almost all compact portable power stations will be suitable for camping, but I rather like the Bluetti Handsfree 2 for this role - mostly because many of them are big, boxy, unwieldy units that take up a fair amount of space.

Is BougeRV a good portable power station?

With its latest model, BougeRV has seriously jumped into the portable power station tech race. This means their products are worth considering when looking for a good portable power station.

What is a portable power station?

A portable power station is a device that provides portable electricity. These little ones are generally smaller than a lunch box and good for tasks like recharging laptops and speakers, LED lighting, and small fans. On the high-capacity end, portable power stations top out at around 4,000 Wh plus are expandable with extra batteries.

Which portable power station has detachable 3-mode camping lights?

That is, of course, until one manufacturer decides to shake things up. Anker did exactly that with the Solix C800 Plus, the first portable power station with detachable 3-mode camping lights. The Solix C800 Plus, at its heart, is a power beast, stuffed with durable LiFePO4 batteries that can stash a whopping 768Wh of power.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.
