

What is the number of Tiraspol outdoor power supply

An active local economy relying on exports is however still needed to turn free gas into hard currency: this includes not only a considerable manufacturing and agricultural base, but also a small number of very large energy-consuming companies (such as a power plant, a metallurgic plant, and a cement plant). On top of this, Russia has been ...

One good example is the supply of gas through a Russian-Moldovan agreement, for which the Transnistrian government hasn't paid in years. By mid-2014, the bill had reached US\$4 billion (about EUR3.5 billion). At the same time, the primary consumers - and debtors - of the gas are the industrial plants that belong to oligarchs and the ...
