

Which outdoor power supply is recommended in Accra

What power plugs/outlets are used in Ghana?

Ok, you are going to Ghana, you will use power plugs/outlets similar to the following picture (s): (includes Accra, Kumasi, Cape Coast, Tamale, Bolgatanga, Busua, Elmina.) Voltage used in Ghana is 230V and the electrical frequency is 50Hz. (more details after you choose where are you plugs from.)

What voltage does Ghana use?

Ghana uses 230V voltage, which is the same as in Europe. The outlet type in Ghana is Type D, which has three round pins and a grounding pin.

What type of plug sockets are used in Ghana?

Ghana uses Type D plug sockets that have three round pins and a grounding pin. These plugs are typically used with devices that have a voltage of 230V. Type G plug sockets have three rectangular pins and a grounding pin.

Can I use electronic devices in Ghana without an adapter?

Before you travel, ensure your electronic devices are compatible with Ghana's outlet types and voltage. Ghana uses outlet types D and G at a voltage of 230V and a frequency of 50 Hz. You will need an adapter if you're from North America.

What are Ghana's power supply challenges?

Power supply challenges (including instability, low voltage, and blackouts), known as 'Dumsor', have plagued Ghana for years, and remain significant concerns for both industrial and residential customers. In just the first half of 2021, multiple major outages have occurred (see Annex), caused by three main issues: Tripped transmission lines.

Do North Americans need an adapter in Ghana?

No! North Americans will need an adapter for the outlets when traveling to Ghana. The device plugs from North America will not work with the outlet types in Ghana. Additionally, a transformer is needed for the voltage difference.

April 3, 2021: Trip on the Volta-Accra East line when a conductor on the line fell near the Accra East substation. April 12, 2021: System disturbances initiated by a fault on the Aboadze-Anwomaso line and cascaded trips on Aboadze-Volta, Sunon Asogli-Volta, Sunon Asogli-Dawa and Dawa-Davi; 330kV lines together with
