

Basseterre Mobile Power Station Generator Set

What is a mobile generator set?

Mobile Generator Sets, also known as mobile power plant, refer to a power generation system that mounts a generator set on a trailer or vehicle. It is a modular and expandable system and includes all ancillary equipment. Mobile Generator Sets power output is less than 3 MW/Units, and can run fuel oil or gaseous fuels.

What are the different types of mobile generator sets?

According to the purpose classification, it can be divided into standard mobile generator sets and silent mobile generator sets. We supply mobile generator sets with output rating from 7.6 kW to 3,000 kW. They are widely applied to factory & mining, power plants, onshore oil fields and offshore oil rigs.

What is a MPMC GB series hybrid generator set?

o Forklift holes at the bottom for easy transportation. MPMC GB Series hybrid generator set consists of a traditional diesel/gas generator set and a battery energy storage system.

What is MPMC GSB hybrid power station?

MPMC GSB hybrid power stations have been widely used in various scenarios of applications including rental, accommodation in mining, construction sites, telecommunication base stations etc., o Integrated installation, convenient storage and transportation. o High return on investment and quick return. o Simple operation and easy maintenance.

What are the features of a power generator?

Auto start/stop generator sensing the battery voltage with multiple protection and automatic charging. o Power management module with intelligent control of different energy sources while adapting to different power loads and outputs. o Remote cloud monitoring system. Auto maintenance reminder and operation data analysis, optimized and user friendly.

Portable power stations (also called gasless generators or battery-powered inverter generators) are devices which can store electrical power in an internal battery for later use. In essence, they are giant power banks. Portable power stations usually provide electrical power of up to 1000 W, although there are exceptions and devices with much higher capacity can be ...
