

# Canada's large single-unit outdoor power supply

What is a micro 100 power supply?

The Micro 100 is a superior outdoor rated uninterruptible power supply/backup power solution that supports loads up to 100W. Protected by an outdoor rated (NEMA 3R) enclosure, the Micro 100 operates in the most severe weather conditions.

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.

What is the best portable power station?

If you're looking for a reliable power station that's also budget-friendly (we know, that's a big ask), our top recommendation is the Bluetti EB3A Portable Power Station. It's built to last for years and has a highly versatile range of ports to meet all of your charging/power needs.

What makes a true outdoor UPS system?

A truly outdoor UPS system has many distinguishing characteristics, including conformal coated printed circuit boards (PCBs) which protect against exposure to moisture and dust, and carefully selected components to operate reliably in extreme temperatures.

What is the best portable power station for camping?

If you spend a lot of time camping in remote areas, the Bluetti AC180 Portable Power Station is the best option for you. It's got a great battery capacity and will be able to charge/power a bunch of your devices and small appliances at the same time. Sounds pretty perfect, right?

Why should you choose IDEC power supplies?

At IDEC, power supplies aren't just an add-on product, they are the foundation of a reliable application. We are committed to upholding the highest standards of manufacturing and design to produce a complete line of power supplies that outlast and outperform the competition!
