

Romania container generator purchase cost

How much does a generator cost?

The purchase of a generator can cost several thousand euros. We at MT Container GmbH have consistently sold generators from well-known manufacturers such as Carrier and Thermo King at our container depot. These generators have different features and performance levels.

Can I buy or rent a generator?

Buying or renting from us is possible depending on whether you have a temporary or permanent need for a generator. The purchase of a generator can cost several thousand euros. We at MT Container GmbH have consistently sold generators from well-known manufacturers such as Carrier and Thermo King at our container depot.

How long can a diesel generator run a container?

A diesel generator is able to run a container for up to 5 days without the need to refill fuel. At MT Container GmbH in Hamburg, you can buy or rent generators for your containers, of course always after a comprehensive expert consultation. We also offer repair and maintenance for generators, containers and reefers.

How to choose a generator for a reefer container?

An undermount generator is especially suitable if you want to transport by frequently changing containers by truck. A generator of this type has a weight of around 700 kilograms. Clip on generators can be installed on the reefer container, therefore fitting more flexibly. Mounting and replacement can be done within minutes.

Can a generator run a refrigerated container?

A generator can be an important addition to your refrigerated container. A diesel generator is able to run a container for up to 5 days without the need to refill fuel. At MT Container GmbH in Hamburg, you can buy or rent generators for your containers, of course always after a comprehensive expert consultation.

Can a clip on generator be installed on a reefer container?

Clip on generators can be installed on the reefer container, therefore fitting more flexibly. Mounting and replacement can be done within minutes. Thus, a clip on generator is the perfect solution for refrigerated containers that are transported on ships, trucks or rail, as well as for storage in places where no power connection is available.
